

**Architectural and Architectural Engineering Education Programs
at Bachelor & Master Level
Accredited by JABEE
Last updated: 2 April 2018**

JABEE has been accrediting Architectural and Architectural Engineering Education Programs at Bachelor & Master Level since 2008. Listed here are integrated education programs of architectural and architectural engineering education of undergraduate (4 years) and postgraduate (2 years).

Programs are listed under higher education institution and in alphabetical order of program titles. The year indicated after each program title is the academic year when the programs were first accredited by JABEE (academic year starts from beginning of April and end at March). Comprehensive review visits are normally conducted at six-year intervals. Students are deemed to have graduated from an accredited program providing they graduate from the program within its validity period of accreditation. Programs discontinued as well as programs whose accreditation validity has expired are identified by showing a final school year of accreditation.
